## 1<sup>st</sup> Edition

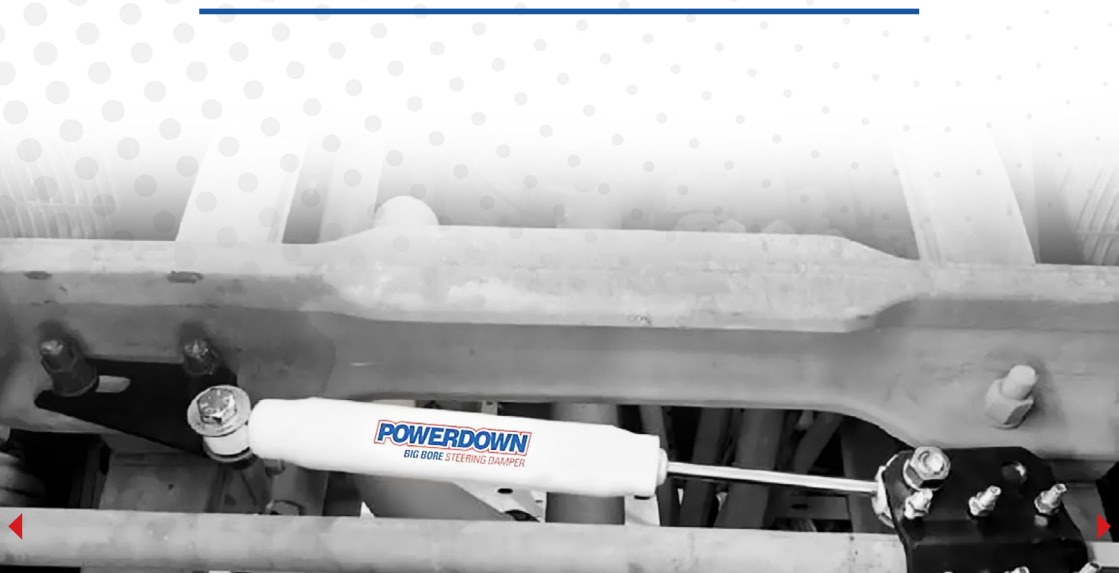

# POWERDOWN

From humble beginnings in 1983, Powerdown today sees over 40 years of industry experience and prides itself as the leader in Australian designed suspension solutions, for Extra-Heavy through to Light Commercial Vehicles. Powerdown products have been engineered to high standards, meeting stringent requirements to improve the overall performance and handling of your truck and trailer suspension in terms of vehicle stability and road adherence, culminating in better load protection and increased tyre life.

Our large range of suspension components is specifically designed to withstand the harshest operating conditions, extreme temperatures, and heavy loads.

With its comprehensive range of truck shock absorbers developed Globally and specifically for the South African market, Powerdown should be the brand of choice for your fleet.

**SAC Commercial Parts** supplies affordable, quality replacement parts for all leading European and Asian heavy and medium commercial vehicles as well as aftermarket parts and accessories for trailers, buses, transporters and light commercial vehicles.

Customers can likewise purchase a wide range of used OEM parts, some of which are guaranteed for up to 3 months.

This promotional booklet showcases but a small sample of the parts SAC has on offer.

Contact your nearest branch to find out more about our full range of aftermarket parts, batteries and lubricants or visit [www.sactrucks.co.za](http://www.sactrucks.co.za) to enquire. Prices are available on request. Ts and Cs apply.

# Why Purchase Our Parts?

## ■ QUALITY

At SAC, quality is non-negotiable. We understand that to build a sustainable company that will carry into the next generation, the quality of the product must survive long after the pain of the purchase has faded away. Which is why SAC Commercial Parts Group develops lasting relationships with both local and global industry experts who can guarantee the compatibility and availability of quality replacement parts. An example of such a partnership is the one we have with Diesel Technic (DT) in Germany, one of the largest suppliers of automotive parts and accessories in the world and an organisation that shares the same values regarding the importance of quality and service excellence. Not only is SAC Commercial Parts the sole distributor of DT Spare Parts Batteries and Lubricants in Sub-Saharan Africa, but we are also proudly the only DT Premium Partner in South Africa and one of a mere handful DT Premium Partners in the world. (All DT parts as depicted here within carry a 24-month warranty.)

## ■ SERVICE

Our company is built on a philosophy of service excellence. This approach rings true for all levels of employees, including our management team. At SAC we literally eat, dream, sleep and breathe customer service. Everything we do is geared to ensure that our customers get their parts in the shortest possible time. You are welcome to put us to the test!

## ■ AVAILABILITY

SAC's objective is to stock a complete range of parts suitable for all leading European and Asian heavy and medium commercial vehicles as well as batteries and lubricants for every application. That is why all our branches carry a wide range of stock on site. Stock levels are augmented by next-day-deliveries from our main Warehouse to the branches as well as a countrywide network of service providers to assist in the event of remote breakdowns.

## ■ COMPETITIVE PRICING

SAC has a robust procurement department that works non-stop to ensure that parts are sourced at best quality and price. They also receive regular feedback from the sales teams at the branches regarding parts that are not priced competitively. This information is passed on to our suppliers to ensure that our pricing continuously improves to benefit our customers without compromising on quality.

# FAQs

## Where are the branches located?

The SAC Commercial Parts Group consists of 20 branches, all conveniently located along the main routes of Southern Africa: Polokwane, Mbombela (Nelspruit), Durban, Middelburg (in Mpumalanga), Pomona, Boksburg, Vereeniging, Alrode, Centurion, Klerksdorp, Welkom, Bloemfontein, Gqeberha (Port Elizabeth), Cape Town, Krugersdorp, Paarl, East London, Richards Bay, Newcastle & Francistown.

## What are the business hours?

We are a 24/7 operation. Most of our branches are open to the public between 7h00 and 16h45 Mondays to Fridays and between 8h00 and 13h00 on Saturdays, but it is advisable to confirm with your nearest branch as times may vary. Outside of normal business hours we have teams on stand-by to assist in emergencies and further support is provided on a call-out basis as and when necessary.

## Are replacement parts manufactured to OE specifications?

Both our local and overseas suppliers are sourced specifically with this in mind. Our parts also undergo rigorous testing and are certified accordingly.

## Does SAC Commercial Parts provide any technical services or support?

Our in-house Brand Managers have vast industry experience and can address all your technical queries. We also have a state-of-the-art workshop in Centurion that services and repairs all large and medium European and Japanese commercial vehicles. We further engage in engineering and reconditioning, manufacturing, Dynamometer diagnostics as well as Injector refurbishment and testing.

## What is the company's delivery policy?

We can and do accommodate our customers in this regard if it is economically feasible. In certain instances, we might arrange alternative delivery methods and timelines if the delivery address is remote or inaccessible.

## Do parts come with a Guarantee?

Yes. Parts are tested internationally, but are guaranteed locally, for up to 24 months if you buy a battery or a part supplied by Diesel Technic, our long-standing distribution partner and a leading global supplier of quality replacement parts.
